

WARRANTY INFORMATION

We offer a no questions asked warranty period of:

18 months from date of purchase for NiCd batteries

12 months from date of purchase for NiMH & Li-Ion batteries

12 months from date of purchase for radio battery chargers

- **Batteries are warranted to maintain 80% of rated capacity for warranty period**
- **Warranty also covers defects in material workmanship that may occur under normal usage of battery for the above specified periods**
- **Replacement batteries are sent to you with no shipping charges**
- **Replacement batteries are NEW, we do not repair or refurbish batteries**
- **Replacement batteries warranty period is from original date of purchase**

All returns must be accompanied by an RMA (return merchandise authorization #), and that RMA # should be on the return box. To obtain the RMA #, please contact our customer service department at 800-523-6543.

SHIPPING POLICY

Every attempt is made to ship product to you the same day that it is ordered- in the event an item is out of stock, we will notify you of the expected ship date. O'Donnell Batteries is proud of the fact that we ship 98% of our battery orders the same day that the customer places the order.

SHIPPING RATES

**Actual shipping rates are set by USPS for shipment in a "Flat Rate Box".
Approximate delivery time is 3 business days**

About O'Donnell Batteries

O'Donnell Batteries is pleased to send you our newest 2-way battery catalog.

We feature the most popular radio batteries and our products are assembled using only best quality cells. Our pricing is among the most competitive in the industry and we offer special discounts when 10 or more of a particular battery pack is ordered and also further discount pricing on 50 or more.

We at O'Donnell Batteries pride ourselves on our personal service to customers and we are committed to doing all that is possible to meet your needs.

Attention!

Over the past few years there has been growing concerns regarding the toxicity of cadmium during the production of Nicad cells and the impact of cadmium on the environment if not properly recycled. These concerns have led to manufacturers moving away from the production of Nicad cells by replacing this with Nickel Metal Hydride cells (NiMh). This transition to the "H" (NiMh) cells allows this product to be an exact replacement for the Nicad one and remains compatible with current chargers.

Please Call!

If the manufacturer and model number of your Radio is not listed please call us at 1 800 523- 6543 for battery Part Number; cost and availability.
